VETERAN-OWNED SMALL BUSINESS • SAM.gov ACTIVE • UEI UHVAFMHFSDB5 • CAGE 26ZX5 • PSC 8470

Titan Red LLC is a veteran-owned Florida small business, founded in 2025, built on two lines of work: supplying American-made NIJ Level IIIA soft body armor to U.S. government and law-enforcement buyers, and serving as the U.S. exporter of record behind European law-enforcement primes bidding police framework contracts. Titan Red gives contracting officers and primes a single, compliance-first point of contact from U.S. manufacturer to end user, with the principal personally involved in every engagement.

CORE COMPETENCIES

- **Personal Body Armor Supply (PSC 8470).** Concealable and overt NIJ Level IIIA soft armor vests sourced from established U.S. manufacturers for federal, state, and local law enforcement.
- **Commercial-Item Federal Supply.** Product and supply arrangements aligned with simplified acquisition; quotes supported by manufacturer NIJ compliance documentation for each model.
- **Export Compliance (EAR, not ITAR).** Written ECCN classification confirmed per SKU before any quote; license determination per shipment; denied-party and end-use screening; AES filing; five-year recordkeeping per BIS requirements.
- **Exporter of Record & Logistics.** Takes title and manages pricing, export documentation, and freight-forwarder coordination with full chain-of-custody paperwork.
- **International Procurement Support.** Prime-side supply partner: the in-country prime holds the tender and end-user relationship; Titan Red owns the U.S. side: supply, compliance, and export.
- **NIJ Standards Tracking.** Supports buyers through the NIJ 0101.06 → 0101.07 transition (Level IIIA designated HG2 under 0101.07; 0101.06 compliance list remains valid through at least 2029).

MARKET FOCUS & EXPERIENCE

- **Czech Republic (first EU market).** Supply channel in development behind EU primes pursuing Czech Ministry of the Interior / Czech Police body-armor framework tenders.
- **United States.** Federal agencies and state and local police departments and sheriff's offices.
- **Expansion markets.** Poland, France, Germany, United Kingdom, Canada, Australia, and Singapore.

PAST PERFORMANCE

New market entrant with no prior contract awards. U.S. supply partnerships are in place, including an authorized dealer account with Custom Armor Group and a supply agreement with Survival Armor.

DIFFERENTIATORS

- **Veteran-Owned.** Owned and operated by a U.S. veteran. SBA VetCert application in progress.
- **NIJ-Compliant Products.** Focused exclusively on NIJ Level IIIA soft armor from established U.S. manufacturers.
- **EU Export Focus.** Compliance-first U.S.→EU channel for European police procurement, starting in Czechia.
- **American-Made Supply.** Made-in-USA soft armor from established U.S. manufacturers; domestic supply chain.
- **Responsive.** Lean, principal-led firm; every inquiry reaches the founder directly.
